

180R-1.8 | Long reach pruning shears | 1817 mm

The 180R-1.8 long-reach pruning shear with a lightweight aluminum handle is specially designed for rose harvesting. With a fixed length of approximately 180 cm, this shear offers optimal manoeuvrability and control, eliminating the need for a ladder. The small blades ensure a precise and careful harvest minimizing damage to the plant. The blade is made of hardened, chrome-plated steel, providing extra strength and rust resistance. Thanks to the 180-degree rotating handle, branches up to 22 mm thick can be effortlessly cut from various angles. Additionally, many spare parts are available, contributing to the durability of this high-quality tool. Manufactured in Japan, this shear guarantees exceptional quality and a long lifespan – a reliable choice for every rose grower!

SKU:

ARS180R-1.8

Weight:

695 gram

Length:

1817 mm
