

UV-47 | Telescopic pruning saw

The UV-47 is made of SK5 steel. The saw has a tapering spire, curved blade for better grip in the cut. The saw is equipped with the hook-shaped tip, for the removal of small branches. The TURBOCUT teeth cutting effortlessly through any type of wood. The bark blade at the tip of the saw prevents the ripping of the bast / bark of the tree. Suitable steal the EXP series telescope.
